# Risk & Regulation Channel News: SREP 2024 video series (1) Results 2024 and ECB priorities 2025 - 2027

**In our latest episode on PwC's Risk and Regulation News Channel, Martin Neisen, Gregory Joos and Stefan Röth discuss the results of the 2024 Supervisory Review and Evaluation Process (SREP) as well as the three Supervisory Priorities of the ECB for 2025 to 2027.**

On December 17th, the ECB published the results of the Supervisory Review and Evaluation Process 2024 of the Significant Institutions (SI) under direct ECB supervision. At the same time, the Supervisory Priorities for 2025 to 2027 were published. They will guide the ECB supervisory actions in the years to come.

Some interesting changes can be noted when comparing both publications to the ones of last year. And of course, there is most likely an impact that goes beyond the SIs and will also be felt by the Less Significant Institutions (LSI).

In this video, Head of EBA/SSM Office Martin Neisen, Gregory Joos of PwC Belgium and Stefan Röth give an overview of both publications. Their particular focus rests on the impact of geopolitical shocks and macroeconomic threats as well as subtle but noteworthy changes compared to last year's publication of the ECB.
