Webcast 29 July: Transfer Pricing Insights: pCbCR – Focus on Japan

We are pleased to invite you to our webcast "Transfer Pricing Insights: pCbCR – Focus on Japan", which will take place on 29 July 2026 at 9:00 AM.

The EU Public Country-by-Country Reporting (EU pCbCR) Directive mandates that large multinational enterprises publicly disclose key tax and financial data. The EU pCbCR is a regulation that remains one of the key topics in the transfer pricing landscape. As countries outside the EU and the European Economic Area (EEA) are generally unfamiliar with this regulatory framework, it is particularly important to raise awareness of pCbCR among Japanese-headquartered groups. Japanese Ultimate Parent Entities (UPEs) that maintain subsidiaries or permanent establishments in EU/EEA Member States may be obliged, under certain conditions, to publish their Country-by-Country Report in Germany. Our webcast provides you with a comprehensive overview of the current state of play and focuses specifically on the obligations arising for Japan-headquartered UPEs under the EU/EEA public CbCR regime.

The following topics will be covered in the webcast:

- Fundamentals and key features of pCbCR as an EU regulation and its relevance for non-EU/EEA-headquartered groups
- Specific rules applicable to Japanese UPEs and the conditions triggering public CbCR obligations in the EU/EEA
- Publication requirements in Germany for multinational enterprises with Japanese headquarters
- Practical recommendations for your compliance strategy and steps to prepare for pCbCR reporting

The webcast will be conducted primarily in English, with a summary provided in Japanese, ensuring accessibility for both English and Japanese speakers. Presentation materials will also be available in both languages.

We look forward to your participation. **[Register now](#)**
